## McALPINE LOCKS AND DAM

### LOCK CLOSURE

### OHIO RIVER MILE 606.8

McAlpine Locks and Dam (Mile 606.8, Ohio River) The 1200-foot lock chamber is scheduled to be closed intermittently for emergency repairs from **June 19, 2007 through June 22, 2007**. The lock will be closed 8 hours per day for each of the four days from 8:00 AM through 4:00 PM local time (Eastern Daylight Savings Time). There will be additional, four hour or less closures, on **June 18 & 23, 2007** for equipment mobilization. Since there is no auxiliary lock, traffic will not be passed during the intermittent closures. During the closure periods structural repairs will be made to the lock gates. This schedule may be modified if excessive queues develop.
